 - v. Questions/Comments to Tom:
 1. It would be nice to have the “math” calculations with the letters so that it is easier to understand how rates are figured.
 2. Please continue to provide acknowledgement back to chapters who are making efforts
 3. How is the percentage calculated/looked at with the chapter rate, when the percentage is a x.xx number rate...do you round up or round down. Example...if the male rate is 5.9...and a chapter gets 6.00 are they ever given any breaks with that?
